3. BUSINESS OVERVIEW AND OTHER MATTERS

3.1. BUSINESS OVERVIEW

Development in 6M23

The first half of 2023 was, as expected, connected with decrease of volumes sold due to increased prices. The total volume decrease for the Group in 6M23 was 11%. Decline in the first quarter was 7%, in the second quarter it was around 13%. The volume decline is close to our expectations and in combination with other factors (such as increased material costs or increased salaries) lead to 6M23 EBITDA of CZK 581.1 million which represents year over year increase by CZK 163.1 million or 39%, in the first quarter the increase was by CZK 106.4 million or 95.2%, in the second quarter by CZK 56.7 million or 18.5%.

Development in the particular business segments is presented further in this interim report within section 3.1.2. CzechoSlovakia business segment is growing the most in absolute terms (by CZK 137.1 million in 6M23) and Fresh & Herbs segment is growing the most in relative terms (by 80.9%) which is mainly due to excellent performance of UGO which was even able to end up in black numbers on a net result level in 2Q23.

Information in relation to Ukraine crisis is described in section C.4.17.

Up to date results are better than our expectations which leads us to believe that the overall annual results could be at top end of our annual EBITDA estimated range (CZK 1,200 - 1,250 million). Higher volume decrease in the second quarter could however indicate a negative trend which is why we remain focused on top business delivery through both existing and new products (such as Targa Florio tonics, Prager's Kombucha or Semtex Extrem in CzechoSlovakia, Oraketa vitamin powder drink or FunctionALL waters in Adriatic, Poke bowls in UGO).

Adjustments of reported performance and position

Presented below is a description of the financial performance and financial position of Kofola Group in 6M23. It should be read along with the financial statements and with other financial information contained in the attached consolidated financial statements. The Board of Directors is presenting and commenting on the consolidated financial results adjusted for one-off events in the following sections of part A.

Revenue

Increase of Group's revenue demonstrates the strength of its brands in their local markets where the customers' demand acted well on our well managed focus on our strong brands. The increase is caused by price increase, volume-wise there is a decrease by 11%.

Business segments	6M23		6M22		Change	
	Revenue	Share	Revenue	Share	Change	
	CZK'000 000	%	CZK'000 000	%	CZK'000 000	%

Total	4,052.8	100.0%	3,717.1	100.0%	335.7	9.0%

CzechoSlovakia segment sales grew the most in the On premise (drinks in KEGs and glass bottles) and On the go category (drinks in cans and 1l- packaging). At home (syrups and drinks in 1.5l+ packaging) format sales grew as well, with only single digit growth rate. Kofola, Korunní, Klášterná Kalcia, Rajec and Royal Crown Cola brands grew the most.

The biggest sales increase in Adriatic was achieved by Radenska, Ora, Studena and Pepsi brands. The sales growth from formats perspective was similar to CzechoSlovakia business segment. Price and volume variations were lower in the Adriatic segment.

Fresh & Herbs segment revenue was driven by UGO and LEROS. UGO is on a very positive trajectory overall. LEROS has experienced good performance in export, e-shop and gastro segment.

The activities of the Group concentrate on the production of beverages in four market categories: carbonated beverages (including cola beverages), non-carbonated beverages, types of bottled water and syrups. Together these categories accounted for 85.7% of the Group's revenue in 6M23 (in 6M22: 86.5%).

Syrups category was connected with the highest increase of material prices.

3. BUSINESS OVERVIEW AND OTHER MATTERS

Sales by countries (per end customer)	6M23		6M22		Change	
	Revenue	Share	Revenue	Share	CZK'000 000	%
	CZK'000 000	%	CZK'000 000	%

Total	4,052.8	100.0%	3,717.1	100.0%	335.7	9.0%

The allocation of revenue to a particular country segment is based on the geographical location of customers.

Only a marginal growth in Croatia was influenced by rainy and fairly cold weather which meant delayed start of the tourist season. In case of both Slovenia and Croatia, there is also a negative FX impact on translation to Czech Crowns. The same is applicable also to Kofola (SK).

Cost of sales

Group's Cost of sales increased less than sales mainly due to lower than expected energy prices and also due to fixed part of Cost of sales (such as depreciation) which remains relatively stable or even decreases (as is the case in 6M23 due to ended depreciation of selected production machinery) despite revenue growth.

Selling, marketing and distribution costs

Selling, marketing and distribution costs remained relatively stable which is due to savings in logistics costs.

Administrative costs

Administrative costs increased mainly due to increased salaries, provisions for employee bonuses and increase of the share based payments reserve.

EBITDA

Adjusted EBITDA	6M23	6M22
	CZK'000 000/%	CZK'000 000/%
EBITDA*	581.1	418.0
EBITDA margin**	14.3%	11.2%

* EBITDA refers to operating profit/(loss) plus depreciation and amortisation.

** Calculated as (EBITDA/Revenue)*100%.

Adjusted EBITDA by business segments	6M23		6M22		Change	
	EBITDA	EBITDA margin	EBITDA	EBITDA margin	CZK'000 000	%
	CZK'000 000	%	CZK'000 000	%		
CzechoSlovakia	437.8	15.0%	300.7	11.3%	137.1	45.6%
Adriatic	104.4	15.0%	95.8	14.4%	8.6	9.0%
Fresh & Herbs	38.9	8.8%	21.5	5.6%	17.4	80.9%
Total	581.1	14.3%	418.0	11.2%	163.1	39.0%

Positive revenue development, savings in logistics but also above expectation performance of UGO lead to overall EBITDA increase.

3. BUSINESS OVERVIEW AND OTHER MATTERS

Finance income/(costs), net

Better financial result was influenced mainly by FX gains from EUR payables (total FX impact was better by CZK 45.9 million). There was lower gain from derivatives in 6M23 by CZK 12.0 million.

Income tax

Higher Income tax is a result of higher taxable profits in Group companies.

3.1.3 FINANCIAL PERFORMANCE IN 2Q

Adjusted consolidated financial results	2Q23	2Q22	Change	Change

- attributable to owners of Kofola ČeskoSlovensko a.s.	121.9	72.0	49.9	69.3%

Development in 2Q23 is similar as in 6M23 in operating result. The sold volume decreased by 13%, At home formats were impacted the most.

Finance costs were higher in 2Q23, mainly because there is not such significant FX effect in place as it was in 6M23.

Total	2,340.4	100.0%	2,211.2	100.0%	129.2	5.8%

Decline of revenue in Adriatic was caused by unfavourable weather conditions and also by the translation of their local revenues (in EUR) to CZK because the average FX rate has decreased between the comparable periods. The same is applicable also to Kofola (SK).

Total	2,340.4	100.0%	2,211.2	100.0%	129.2	5.8%

Decrease of Syrups sales is described in 6M period comparison above. Non-carbonated beverages slightly decreased which is caused by lower FX rates (sales of Kofola (SK), RADENSKA and Studenac) but also by slightly lower sales of Rauch juices. For other categories, the development of revenue by product lines is in line with the information already presented above.

3. BUSINESS OVERVIEW AND OTHER MATTERS

Total	2,340.4	100.0%	2,211.2	100.0%	129.2	5.8%

Sales in Adriatic are more dependent on the main season which was connected with the worse weather. There is also negative FX impact. For other countries, the development of revenue is in line with the information already presented above. Other represents export and is a minor part of Group's revenue.

ASSETS

Property, plant and equipment decreased as a net result of additions of CZK 196.2 million, depreciation charge of CZK 237.8 million and impairment charge of CZK 69.4 million in relation to closed Grodzisk Wielkopolski plant (downward revaluation due to long-term unsuccessful sale effort). The most significant additions realized by the Group in 6M23 were represented by investments into the production machinery, vehicles and returnable packages.

Intangible assets decreased mainly as a result of amortization charge of CZK 36.8 million.

Investments in equity accounted investees represent mainly 1/3 share in General Plastic, a. s., a Slovak producer of hot-washed PET flakes and PET preforms used for production of PET bottles.

Other non-current assets contain mainly prepayments, deferred expenses and receivable from derivatives. Decrease is attributable mainly to revaluation of derivatives (by CZK 15.2 million).

Trade and other receivables increased mainly due to higher trade receivables (by CZK 275.1 million) which was driven by increased sales (seasonality).

Inventories increased due to higher purchases and also due to increased material prices.

LIABILITIES

Decrease of the Bank credits and loans is a result of the regular loan repayments (CZK 91.1 million), overdraft and CAPEX tranche drawing (CZK 75.5 million) and downward FX revaluation (CZK 30.9 million).

Lease liabilities decreased mainly as a net result of lease additions (CZK 60.5 million) and lease repayments (CZK 65.3 million).

The Group's provisions increased mainly due to provision for employee bonuses.

Trade and other payables increased mainly due to higher trade payables (CZK 103.9 million), trade payables balance is comparable with balance as of 30 June 2022. There were also higher advances received for returnable packages due to seasonality (by CZK 41.3 million).

The Group's consolidated net debt (calculated as total non-current and current liabilities relating to credits, loans, leases and other debt instruments less cash and cash equivalents) amounted to CZK 3,180.8 million as at 30 June 2023, which represents a decrease by CZK 114.2 million. Decrease is influenced by the better operating cash flows.

3. BUSINESS OVERVIEW AND OTHER MATTERS

The Group's consolidated net debt / Adjusted LTM EBITDA as at 30 June 2023 was of 2.50 (as of 31 December 2022: 2.97).

3.1.5 CASHFLOWS

Cash flows from operating activities were higher by CZK 98.5 million mainly due to better operating result.

Cash flows from investing activities were higher by CZK 14.9 million mainly due to lower CAPEX in 6M23 (CZK 146.2 million in 6M23 as compared to CZK 202.3 million in 6M22). There were cash outflows connected with the acquisition of 1/3 share in General Plastic of CZK 38.7 million.

Cash flows from financing activities were lower by CZK 128.1 million mainly due to cash inflows from sold derivatives in 6M22 (CZK 126.6 million).

From the total balances in relation to repayments and drawings of loans and bank credits presented within the Consolidated statement of cash flows, amount of CZK 9.7 million represents the drawing of Group's overdraft (in 6M22: drawing of CZK 127.0 million).

3.1.6 TRANSACTIONS WITH RELATED PARTIES THAT SUBSTANTIALLY INFLUENCED FINANCIAL PERFORMANCE

There were no transactions with related parties that substantially influenced financial performance for the reported period ended 30 June 2023.

3.1.7 MAIN RISKS AND UNCERTAINTIES IN SUBSEQUENT 6 MONTHS

The continuance of war keeps risks and uncertainties for our daily operations and foreseeable future on the table. We have seen historical increases of energy prices that impact not only our production costs. Due to increasing prices of our inputs, we have already significantly increased prices to our customers. Higher prices reflected in higher inflation rate have many adverse effects. As they decrease the value of savings and change purchasing habits, our consumers can be expected to further decrease the amount of their non-mandatory expenses (e.g. by less visits of pubs and restaurants).

Higher inflation led also to a significant increase of interest rates. As a reaction, we have transferred 60% of our bank credits and loans to EUR in mid 2022 from which we already realized significant savings on interest expense. The substantial part however remains in Czech Crowns and as such is subject to risk of interest rate fluctuation.

Currently, we have very solid financial position. We have sufficient cash balances and flexibility in our expenses. We also closely monitor the situation and create scenarios during our regular top management meetings. Still, we believe that the war ends soon and with it also risks of continuing price increases, and the uncertainty about upcoming development in general.

3.1.8 EXPECTED DEVELOPMENT IN SUBSEQUENT 6 MONTHS

In next 6 months, the CzechoSlovakia segment will continue to build and further enhance its competence of being comprehensive supplier with the complete offer of beverages. In the Retail channel, CzechoSlovakia segment will mainly support its most significant brands Kofola, Rajec, Jupí and others while the focus will also be given on the further development of mineral waters Klášťorná Kalcia and redesigned Ondrášovka and Korunní. A special care will be taken of the new products represented by Rajec Ice Tea introduced in Slovakia, Targa Florio tonic in cans or energy drink Semtex Extrem. In the HoReCa channel, the priority will again be given to draught Kofola, further support will be provided to coffee business with brands Café Reserva and Trepallini, as well as the latest portfolio innovations represented by Prager's kombucha and Targa Florio tonic. The CzechoSlovakia segment will manage continuously increasing costs translating them into sales prices and seeking further internal optimizations.

For the second half of the year we expect a progressive reach of our financial targets for Adriatic. We are noticing some cooling in the market regarding demand for our products due to rising prices of all types of FMCG and our efforts are dedicated to maintaining our market shares in Slovenia and Croatia, still we are noticing lower consumption level and a slight shift towards more low-price products in the Retail channel. Our main season has not been as successful as we have predicted due to weather conditions (thunderstorms, floods), but we plan to compensate for it with operating expense savings and more promotional campaigns. Slovenia has been badly impacted with floods in August which has contributed to high decline in Horeca channel, but has seen rise in sales in Retail because of the need for drinking water.

3. BUSINESS OVERVIEW AND OTHER MATTERS

LEROS has big ambitions for the second half of the year, but we are very well prepared. Christmas specials are on stock and in much higher quantities than last year. Our gastro segment is oriented on higher gastro where the demand is still strong and we believe this will continue also in the second half of the year. In December, we will open first LEROS concept store for tea and coffee - this is a key milestone for us - own retail should be next pillar for our revenues.

In Premium Rosa, we have introduced key changes in the sales team (new commercial manager) and we are well prepared for the key season (September-December). We expect to deliver the budgeted results at the end of the year.

After a couple of years of consolidation and qualitative growth, after achieving profitability level, UGO is back on the development track. In the second half of 2023, UGO in the QSR (Quick Service Restaurants) division is planning to open at least one or two franchised freshbars. And in the division of packaged fresh healthy drinks and salads is planning to start export into the Hungarian market.

We will further continue in our significant contributions to the environmental protection and we take ESG as a very important part of our business. We plan to further support a development of our own brands and also a distribution of our partners' brands with focus on CEE region.

There can still be some unexpected challenges in place because of the war at Ukraine.

3.1.9 ALTERNATIVE PERFORMANCE INDICATORS

Even though ESMA (European Securities and Markets Authority) does not require a reconciliation of Alternative Performance Indicators (APM) to financial statements if the APM can be defined from the financial statements, we add such a reconciliation for better understanding of our calculation of EBITDA and Net debt.

Purpose of APM:

A. EBITDA

The Company uses EBITDA because it is an important economic indicator showing a business's operating efficiency comparable to other companies, as it is unrelated to the Company's depreciation and amortisation policy, capital structure and tax treatment. EBITDA indicator is also treated as a good approximation for operating cash flow. Additionally, it is one of the fundamental indicators used by companies worldwide to set their key financial and strategic objectives.

The Company uses EBITDA indicator also in budgeting process, benchmarking with its peers and as a basis for remuneration for key management staff. Such indicator is also used by stock exchange and bank analysts.

B. Net debt

The Company uses Net debt indicator because it shows the real level of a Company's financial debt, i.e. the nominal amount of debt net of cash, cash equivalents, and highly liquid financial assets held by the Company. The indicator allows assessing the overall indebtedness of the Company.

3. BUSINESS OVERVIEW AND OTHER MATTERS

C. Net debt/EBITDA

The Company uses Net debt/EBITDA indicator because it indicates a Company's capability to pay back its debt as well as its ability to take on additional debt to grow its business. Additionally, the Company uses this indicator to assess the adequacy of its capital structure and stability of its expected cash flows. Such indicator is also used by stock exchange and bank analysts.

3.1.10 DIVIDEND POLICY

On 21 October 2021, the Board of Directors of the Company approved the Company's dividend policy for the periods of 2021 to 2023. The intention of the Board of Directors is to maintain the current trend and distribute approximately CZK 300 million to shareholders in each financial year. This currently represents approximately CZK 13.46 per share before tax. The realisation of this intention is conditional on sufficient funds being available for distribution (distributable resources) without jeopardising the Company's financial stability. This dividend policy was announced at the General Meeting on 29 November 2021.

3.1.11 OTHER INFORMATION

The Czech National Bank and Company were informed by NN Group N.V. about the inaccurate reportings of their shareholdings in 2018 and 2020.

The holdings were 3.89% as per 20 September 2018 and 2.79% as per 17 February 2020 due to the fact that two entities were not added in the disclosure filed then.

3.2. SUBSEQUENT EVENTS

No events have occurred after the end of the reporting period that would require disclosures in the Board of directors' report.

3. SIGNIFICANT ACCOUNTING POLICIES

3.1. STATEMENT OF COMPLIANCE AND BASIS OF PREPARATION

BASIS OF PREPARATION

The consolidated financial statements have been prepared in accordance with the laws binding in the Czech Republic and with International Financial Reporting Standards (“IFRS”), as well as the interpretations issued by the International Financial Reporting Interpretations Committee (“IFRIC”) adopted by the European Union, published and effective for reporting periods beginning 1 January 2023.

The consolidated financial statements have been prepared on a going concern basis and in accordance with the historical cost method, except for financial assets and liabilities measured at fair value, employee benefits measured at fair value and the assets, liabilities and contingent liabilities of the acquiree which are measured at their acquisition-date fair values as required by IFRS 3.

The consolidated financial statements include the consolidated statement of the financial position, consolidated statement of profit or loss, consolidated statement of other comprehensive income, consolidated statement of changes in equity, consolidated statement of cash flows and explanatory notes.

The Group’s consolidated financial statements cover the period of six months ended 30 June 2023 and contain comparatives for the period of six months ended 30 June 2022 and as of 31 December 2022 (in case of the consolidated statement of financial position). Consolidated statement of profit or loss and consolidated statement of other comprehensive income are presented also for the periods of 3 months ended 30 June 2023 and 30 June 2022.

The consolidated financial statements are presented in Czech crowns (“CZK”), and all values, unless stated otherwise, are presented in CZK thousand.

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires that management exercises its judgement in the process of applying the Group’s accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in section 3.7.

3.2. FUNCTIONAL AND PRESENTATION CURRENCY

The consolidated financial statements are presented in Czech crowns (CZK), which is the Company’s functional and presentation currency.

3.3. FOREIGN CURRENCY TRANSLATION

The financial statements items of the Group entities are measured using their functional currency. Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions.

Monetary assets and liabilities expressed as at the balance sheet date in foreign currencies are translated using the closing exchange rate announced by the National Bank for the end of the reporting period, and all foreign exchange gains or losses are recognized in profit or loss under:

- operating income and expense – for trading operations,
- finance income and costs – for financial operations.

Non-monetary assets and liabilities carried at historical cost expressed in a foreign currency are stated at the historical exchange rate as at the date of the transaction. Non-monetary assets and liabilities carried at fair value expressed in a foreign currency are translated at the exchange rate as at the date on which they were remeasured to the fair value.

The following exchange rates were used for the preparation of the financial statements:

Closing exchange rates	30.6.2023	31.12.2022	30.6.2022
CZK/EUR	23.730	24.115	24.740
CZK/PLN	5.346	5.152	5.276
CZK/HRK	n/a	3.200	3.285

3. SIGNIFICANT ACCOUNTING POLICIES

Average exchange rates	1.1.2023	1.1.2022	1.1.2022
	- 30.6.2023	- 31.12.2022	- 30.6.2022
CZK/EUR	23.690	24.565	24.649
CZK/PLN	5.125	5.245	5.318
CZK/HRK	n/a	3.260	3.268

Croatia is part of Eurozone since 1 January 2023, as such, the balances of Studenac d.o.o. have been translated to CZK from EUR.

The results and financial position of foreign operations are translated into CZK as follows:

- assets and liabilities for each statement of financial position presented at closing exchange rates announced by the Czech National Bank for the balance sheet date,
- income and expense for each statement of profit or loss at average exchange rates announced by the Czech National Bank for the reporting period, unless this is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions,
- the resulting exchange differences are recognised in other comprehensive income and accumulated in equity,
- cash-flow statement items at the average exchange rate announced by the Czech National Bank for the reporting period, unless this is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions. The resulting foreign exchange differences are recognized under the “Effects of exchange rate changes on cash and cash equivalents” item of the cash-flow statement.

Goodwill and fair value adjustments arising on the acquisition of a foreign operation are treated as assets and liabilities of the foreign operation and translated at the closing rate.

Foreign exchange gains and losses recognized in profit or loss are offset on individual company level.

3.4. CONSOLIDATION METHODS

The consolidation methods based on which the present financial statements have been prepared have not changed compared to the methods used in the annual consolidated financial statements for the twelve-month period ended 31 December 2022.

3.5. ACCOUNTING METHODS

The Group has acquired equity accounted investees in Q2 2023. The accounting policy for these investees is provided below.

ASSOCIATES AND EQUITY ACCOUNTED INVESTEEES

Associates are all entities over which the Group has significant influence but not control, generally accompanying a shareholding of between 20% and 50% of the voting rights. Equity accounted investee is an investment where the Group has a joint control over the investment. Investments are accounted for using the equity method of accounting. Under the equity method, the investment is initially recognized at cost, and the carrying amount is increased or decreased to recognize the investor's share of the net assets of the investee after the date of acquisition. The Group's investment in associates and equity accounted investees includes goodwill identified on acquisition.

If the ownership interest is reduced but significant influence is retained, only a proportionate share of the amounts previously recognized in other comprehensive income is reclassified to profit or loss where appropriate.

The Group's share of post-acquisition profit or loss is recognized in profit or loss and its share of post-acquisition movements in other comprehensive income (including the effects of translation of the financial position and results of the investment from its functional to the Group's presentation currency) is recognized in other comprehensive income with a corresponding adjustment to the carrying amount of the investment. When the Group's share of losses in an investment equals or exceeds its interest in the investment, including any other unsecured receivables, the Group does not recognize further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the investment.

The foreign investments are retranslated using foreign exchange rate valid at the balance sheet date and any resulting difference is recognized in Other comprehensive income.

3. SIGNIFICANT ACCOUNTING POLICIES

The Group determines as at each reporting date whether there is any objective evidence that the investment is impaired. If this is the case, the Group calculates the amount of impairment as the difference between the recoverable amount of the investment and its carrying value and recognizes the amount adjacent to share of profit/(loss) of investment in the income statement.

Profits and losses resulting from upstream and downstream transactions between the Group and its investments are recognized in the Group's financial statements only to the extent of unrelated investor's interests in the investments. Unrealized gains and losses are eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of the investments have been changed where necessary to ensure consistency with the policies adopted by the Group.

The other adopted accounting policies are consistent with those used in the annual consolidated financial statements for the twelve-month period ended 31 December 2022.

3.6. NEW AND AMENDED STANDARDS ADOPTED BY THE GROUP

Several standards, amendments and interpretations apply for the first time in 2023, but do not have any material impact on the Group's financial statements.

3.7. SIGNIFICANT ESTIMATES AND KEY MANAGEMENT JUDGEMENTS

Since some of the information contained in the consolidated financial statements cannot be measured precisely, the Group's management must perform estimates to prepare the consolidated financial statements. Management verifies the estimates based on changes in the factors considered at their calculation, new information or past experience. For this reason, the estimates made as at 30 June 2023 may be changed in the future. The main estimates pertain to the following matters:

Impairment of CGU, goodwill and individual tangible and intangible assets	Key assumptions used to determine the recoverable amount: Impairment indicators, used models, discount rates, growth rates.
Useful life of trademarks	The history of the trademark on the market, market position, useful life of similar products, the stability of the market segment, competition.
Deferred tax asset from tax losses	Historical experience, current and forward-looking information available to the management.
Income tax	Assumptions used to recognise deferred income tax assets (other than Deferred tax asset from tax losses).
Impairment of receivables	Historical experience, credit assessment, current and forward-looking information available to the management.

Valuation of Group's CGU and individual assets is highly dependent on projected discount rates and business models which reflected also possible Ukraine crisis implications on the Group's activities.

Despite increasing input prices, there is no material impairment risk related to the Group's assets as of 30 June 2023.

3.8. STANDARDS ISSUED BUT NOT YET EFFECTIVE

The Group has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

3.9. APPROVAL OF CONSOLIDATED FINANCIAL STATEMENTS

The Board of Directors approved the present consolidated financial statements for publication on 31 August 2023.

4. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

4.1. SEGMENT INFORMATION

The Board of Directors of Kofola ČeskoSlovensko a.s. is the chief operating decision maker (“CODM”) responsible for operational decision-making and uses segment results to decide on the allocation of resources to the segments and to assess segments’ performance. Three main business segments are presented within these financial statements. These are:

- CzechoSlovakia,
- Adriatic,
- Fresh & Herbs.

Division of particular Group companies between the segments is outlined in the section 2.2.

Furthermore, CODM monitors revenue, but not a profit measure, from the following product lines:

- Carbonated beverages,
- Non-carbonated beverages (incl. UGO fresh bottles),
- Waters,
- Syrups,
- Fresh bars & Salads,
- Other (e.g. energy drinks, isotonic drinks, tea, coffee, transportation and other services).

In compliance with the relevant requirements of IFRS 8 Operating Segments, the management presents also the distribution of revenues and non-current assets (other than financial instruments and deferred tax assets) distributed into geographical areas.

The Group applies the same accounting methods to all segments. These policies are also in line with the accounting methods used in the preparation of these consolidated financial statements. Transactions between segments are eliminated in the consolidation process.

The Group did not identify any customer in the period of six months ended 30 June 2023 and in the comparative period of six months ended 30 June 2022 that generated more than 10% of the Group’s consolidated revenue.

SEASONAL AND CYCLICAL NATURE OF THE OPERATIONS

Seasonality

Seasonality is associated with periodic deviations in demand and supply and has certain effect on Group's general sales trends. Beverage sales peak appears in the 2nd and 3rd quarter of the year. This is caused by increased drink consumption in the spring and summer months. In the year ended 31 December 2022, about 19.1% (17.4% in 2021) of revenue was earned in the 1st quarter, with 28.1% (27.1% in 2021), 29.8% (31.9% in 2021) and 23.0% (23.6% in 2021) of the annual consolidated revenue earned in the 2nd, 3rd and 4th quarters, respectively. Shares in particular quarters of both 2022 and 2021 were influenced by COVID-19 pandemic.

Cyclical nature

The Group's results are to certain extent dependent on economic cycles, in particular on fluctuations in demand and in the prices of raw materials.

* Excluding Other operating expenses (except for depreciation) and Impairment.

Depreciation decreased due to end of useful life of several assets during 2022. Employee benefits expenses increased due to expenses related to option scheme and higher provisions for employee bonuses. Direct material costs, costs of goods sold, energy costs and services increased mainly due to increased revenue but also due to higher material prices. Higher services were driven mainly by higher revenue.

Related to tax losses	8,885	13,103
Income tax expense/(benefit)	66,584	42,126

* Deferred tax recognized in the profit or loss statement doesn't reconcile to the difference between the values recognized in the statement of financial position which is caused mainly by the foreign exchange differences arising on consolidation of foreign subsidiaries.

The income tax rate applicable to the majority of the Group's 6M23 and 6M22 income is 19%.

4.8.2 INCOME TAX RECOGNISED DIRECTLY IN EQUITY

Income tax elements for the six-month period ended 30 June 2023 and 30 June 2022 were as follows:

Income tax recognised directly in equity	6M23	6M22
	CZK'000	CZK'000

4.9. EARNINGS PER SHARE

The basic earnings per share ratio is calculated by dividing the profit/(loss) for the period attributable to owners of Kofola ČeskoSlovensko a.s. by the weighted average number of ordinary shares outstanding during the period.

The diluted earnings per share ratio is calculated by dividing the profit/(loss) for the period attributable to ordinary shareholders (after deducting the interest on redeemable preferred shares convertible to ordinary shares) by the weighted average number of ordinary shares outstanding during the period (adjusted by the effect of diluting options and own shares not subject to dividends). The diluted earnings per share ratio is not applicable to the Group because it didn't issue any of above-mentioned financial instruments.

4. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Information used to calculate basic earnings per share is presented below:

Weighted average number of ordinary shares	6M23	6M22
	Pcs	Pcs
Total number of ordinary shares issued by the Company	22,291,948	22,291,948
Effect of own shares in possession of the Company	-	(251)
Weighted average number of ordinary shares used to calculate basic earnings per share	22,291,948	22,291,697

Based on the above information, the basic earnings per share amounts to:

4.10. PROPERTY, PLANT AND EQUIPMENT

The additions to Property, plant and equipment were of CZK 196,166 thousand in 6M23.

The most significant additions realized by the Group in 6M23 were represented by investments into the production machinery, vehicles and returnable packages.

Impairment of Property, plant and equipment in 6M23 is resulting from the decrease of the expected value of the closed Grodzisk Wielkopolski plant (downward revaluation due to long-term unsuccessful sale effort).

The additions to Property, plant and equipment were of CZK 265,535 thousand in 6M22 (including lease additions).

The most significant additions realized by the Group in 6M22 were represented by investments into the production machinery and returnable packages.

4.11. INTANGIBLE ASSETS

The Goodwill consists of the goodwill from acquisition of PINELLI spol. s r.o. in April 2011, goodwill from acquisition of production part of Klimo s.r.o. by Kofola a.s. (Czech Republic) in 2006, goodwill from acquisition of LEROS s.r.o. in March 2018, goodwill from acquisition of Minerálka s.r.o. in June 2018, goodwill from acquisition of Espresso s.r.o. in July 2019, goodwill from acquisition of F.H.Prager s.r.o. in January 2020 and goodwill from acquisition of ONDRÁŠOVKA a.s. and Karlovarská Korunní s.r.o. in April 2020.

Amortisation of trademarks with finite useful lives is charged to Selling, marketing and distribution costs. The main trademarks are not amortized – such trademarks with indefinite useful lives are tested for impairment.

The value of trademarks includes, among others, the value of such trademarks as: Kofola, Vinea, Radenska, Citrocola, Semtex energy drink, Erektus, UGO, Premium Rosa, Leros, Café Reserva, Prager ciders and lemonades, Ondrášovka and Korunní.

In 6M23 and 6M22, the additions to intangible assets were immaterial.

4.12. BANK CREDITS AND LOANS

Indebtedness of the group from the credits and loans

As at 30 June 2023, the Group's total bank loans and credits amounted to CZK 3,499,750 thousand (as at 31 December 2022: CZK 3,550,025 thousand).

From the total balances in relation to repayments and drawings of loans and bank credits presented within the Consolidated statement of cash flows (section 1.4), amount of CZK 9,702 thousand represents the increase of Group's overdraft (in 6M22: increase of CZK 126,963 thousand).

The Facility loan agreement as amended (which refinanced loans at that time, served for a loan financing of RADENSKA d.o.o. acquisition and also the acquisition of ONDRÁŠOVKA a.s. and Karlovarská Korunní s.r.o.) with carrying amount of CZK 3,171,291 thousand as at 30 June 2023 (as at 31 December 2022: CZK 3,226,113 thousand) was a main component of

4. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Group's liabilities. The reason for the execution of the Facility loan agreement was a consolidation of Group financing to ensure strategic development and taking advantage of the favourable conditions of financial market.

Credit terms and terms and conditions

Based on credit agreements, the Group is required to meet specified covenants. In accordance with the requirements of IAS 1, a breach of credit terms that may potentially limit unconditional access to credits in the nearest year makes it necessary to classify such liabilities as current.

All bank loan covenants were met as of 30 June 2023 and 31 December 2022.

4.13. LEGAL AND ARBITRATION PROCEEDINGS

Denationalisation proceedings against RADENSKA

There are pending denationalisation proceedings with respect to denationalisation claims of the legal successors of the former owners of RADENSKA d.o.o. – Wilhelmina Höhn Šarič and Ante Šarič. These denationalisation claims have been in the process of being decided on from the year 1993 onward. After several turns in the process the Constitutional court in 2018 reversed the decisions of the authorities adopted by then which prevented the denationalization beneficiaries from denationalization for legal reasons and returned the matter to the first instance authority. Upon such a decision the administrative unit Gornja Radgona as the first instance authority resumed with the process in 2018. In the resumed process the authority, in several partial decisions issued so far in 2018, 2019 and 2020, found the denationalization beneficiaries are entitled to denationalization, however, not in the form of in-kind return of property, for which RADENSKA would be liable, but merely in the form of compensation, which is paid from the Republic of Slovenia and neutral with respect to RADENSKA. In part the denationalisation claims were rejected for lack of merit. Such decisions of the authorities effectively mean that the beneficiary is not entitled to in-kind return of property and therefore neither RADENSKA nor Kofola are obliged to any compensation payment. In February 2021, the beneficiary even withdrew the claim for the in-kind return of the RADENSKA enterprise and real estates owned by the enterprise and is now primarily requesting to be compensated by the state. The authorities recently followed such request and issued decisions according to which the beneficiary is entitled to compensation in form of state bonds, compensated by the Slovene Sovereign Holding and neutral with respect to RADENSKA and Kofola Group. Please note that such decisions, including the most recent decision are not final and thus, in theory, there's still the risk, albeit very low, the current decisions would be reversed later in the process with potential negative consequences for RADENSKA. RADENSKA is therefore still actively participating in the process and protecting its interests.

Litigation with former lawyer

There is a litigation concerning the amount of CZK 23,070 thousand with a former lawyer Mr. Belec, who represented RADENSKA in the denationalization process and with whom RADENSKA already concluded a settlement in 2018. Currently, Mr. Belec is in a personal bankruptcy procedure and claims that the settlement in 2018 was not in his interest. Although we estimate the risk of the plaintiff succeeding with the claim to be low, we note the outcome of legal proceeding is uncertain and therefore a potentially negative outcome cannot be completely excluded.

Other proceedings

Some of the Group companies are routinely involved in legal proceedings which arise in the ordinary course of the Group's business but which are not material to the Group. The Company is not involved in any judicial, administrative or arbitration proceedings and has not conducted such proceedings in the past.

Apart from the above denationalisation related proceedings, there are no governmental, legal or arbitration proceedings (including any such proceedings which are pending or threatened, of which the Company and/or Group is aware, including any claims against the directors of the Company) which may have, or have had during the 12 months prior to the date of these financial statements, an effect on the financial position or profitability of the Company and/or the Group.

The Share capital of the Company is fully paid up. The shares have been admitted for trading on the Prague Stock Exchange.

Course of purchase of own shares in 6M22 (transaction performed within the Group)

The Board of Directors of the Company resolved to implement the acquisition of own shares by the Company on 7 March 2022. The sole purpose of the acquisition of own shares by the Company was to meet obligations arising from share option programmes, or other allocations of shares to employees or to members of the administrative, management or supervisory bodies of the Company or of an associate company.

The conditions for the acquisition of own shares by the Company:

- a) the acquisition took place outside the regulated market, directly from the company RADENSKA d.o.o., a subsidiary company of the Company;
- b) maximum number of shares to be acquired amounted up to 22,615 shares of the Company; and
- c) the acquisition was settled on 8 March 2022 for the price equal to the closing price for which shares of Kofola were traded on the regulated market organized by the company Burza cenných papírů Praha, a.s. on the previous trading day, i.e. CZK 295 per individual share (total value of CZK 6,671 thousand). As such, the contract was concluded at market terms. The shares have nominal value of CZK 50 per individual share.

Shares have been transferred to option scheme participants in March 2022.

4. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Fair value of derivatives

In 2022, the Group concluded IRS contract. Revaluation of derivatives in relation to the effective portion of the hedging relationship is accounted through Other comprehensive income (hedge accounting).

Measured derivatives are not traded in active markets, however all significant inputs required for fair value measurement are observable and as such the Group has included this instrument in Level 2 of fair value hierarchy levels.

4.16. EQUITY ACCOUNTED INVESTEEES

Acquisition 33.33% share in General Plastic, a. s. (joint venture)

On May 16, 2023, the acquisition date, the Company became a 33.33% owner of General Plastic, a. s., a Slovak producer of hot-washed PET flakes and PET preforms used for production of PET bottles. The acquisition is a logical step towards fulfilling the Group's commitment for usage of recycled rPET and is also part of our sustainable packaging approach.

General Plastic is structured as a separate vehicle and the Group has a residual interest in the net assets of General Plastic.

The following table summarises the financial information of General Plastic as included in its own financial statements. The table summarizes the recognized amounts of assets acquired and liabilities assumed at the date of acquisition. The valuation of net assets was prepared on the provisional basis due to the timing of the transaction. If new information obtained within one year of the date of acquisition about facts and circumstances that existed at the date of acquisition identifies adjustments to the below amounts, or any additional provisions that existed at the date of acquisition, the accounting for the acquisition will be revised.

Goodwill attributable to the Group	9,085

Equity accounted investee's revenue and profit/(loss)	16.5.2023 – 30.6.2023
	CZK' 000
Revenue	64,439
Profit/(loss) for the period	(3)

Acquisition of 50.00% share in Cafe Dorado s.r.o. (joint venture)

On June 1, 2023, the acquisition date, the Company became a 50% owner of Cafe Dorado s.r.o. A cash consideration of CZK 10 thousand was fully paid. Due to immateriality, no other information is disclosed.

4.17. UKRAINE CRISIS

Currently, the Group is facing increased prices of raw materials and fluctuating prices of energy. Ongoing war in Ukraine brings new risks and uncertainty to our business. The Group's management is very closely monitoring the development of the war conflict between Russia and Ukraine. The Group has already provided various forms of support to Ukrainian civilians. The whole situation impacts people, companies and states all around the world. The Group has no material direct exposure either to Russia or Ukraine. The war however impacts whole European economy and the increased prices are perceived also by the Group. They do not, however, represent a threat to the Group's ability to continue as a going concern as it has sufficient financial resources and is able to control its costs (e.g. by savings in marketing expenses) to a certain level. In case of the ongoing cost pressure, the Group may also increase the output prices to ensure profitability level expected by its stakeholders.

4. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

The Group updates its risk matrix on a regular basis and is aware of increased risks in connection with the war in Ukraine (such as already mentioned input prices). There can also be an increased frequency of cyber-attacks but we haven't been subject to any such attack that would impact our daily operations or would lead to leakage of the sensitive information. Our IT department monitors the situation on the daily basis and executes necessary steps to continue in the defence of our data and systems.

The Group believes to have sufficient resources from current cash balance and overdrafts. We have an open and long-term relationship with our supportive banking group to whom we communicate our business outlook regularly.

Based on the above analysis and assumptions, including the severe but plausible scenarios, management concluded that the Group will have sufficient resources to continue its business for a period of at least 12 months from the reporting date. As a result, the Group used the going concern basis of accounting in preparing these financial statements.

4.18. SUBSEQUENT EVENTS

No events have occurred after the end of the reporting period that would require adjusting the amounts recognised and disclosures made in the consolidated financial statements.

Statutory declaration of persons responsible for the interim report of Kofola ČeskoSlovensko a.s.
