# 1. BUSINESS OVERVIEW AND OTHER MATTERS

## 1.1.2 FINANCIAL POSITION

### ASSETS

Property, plant and equipment decreased mainly as a net result of additions of CZK 365.4 million and depreciation charge of CZK 388.7 million. The most significant additions realized by the Group in 9M22 were represented by investments into the production machinery and returnable packages.

Intangible assets decreased mainly as a result of amortization charge of CZK 57.2 million.

Other non-current assets contain mainly prepayments, derivatives and deferred expenses. Net increase is attributable to sale of IRS derivatives as a part of the amendment on bank loans agreement and conclusion of new IRS derivatives for EUR part of the loans.

Current trade and other receivables increased mainly due to higher trade receivables (by CZK 196.9 million) resulting from higher sales (seasonality).

Inventories were higher due to increased stock level (connected with higher sales but also pre-stocking to benefit from recent prices) and also due to increased material prices.

### LIABILITIES

Bank credits and loans decreased as a net result of overdraft repayments, regular repayments according to schedule and loan drawings for CAPEX purposes.

The Group's provisions decreased mainly due to payment of employee bonuses.

Trade and other payables increased mainly due to higher trade payables (by CZK 298.1 million) resulting from increasing production, higher payables to employees, payables represented by advances received for returnable packages and liabilities arising from the new packaging deposit system in Slovakia.

The Group's consolidated net debt (calculated as total non-current and current liabilities relating to credits, loans, leases and other debt instruments less cash and cash equivalents) amounted to CZK 3,020.5 million as at 30 September 2022, which represents the decrease by CZK 432.1 million compared to CZK 3,452.6 million as at 31 December 2021. Dividend payment will be realized in 4Q22.

The Group's consolidated net debt / Adjusted LTM EBITDA as at 30 September 2022 was of 3.0 (as of 31 December 2021: 3.1).

## 1.1.3 CASHFLOWS

Cash flows from operating activities decreased mainly due to changes in working capital.

Cash flows from investing activities decreased mainly due to higher CAPEX.

Cash flows from financing activities increased mainly due to cash flows from sold IRS derivatives (CZK 126.6 million), loan drawings and lower repayments.

## 1.1.4 DIVIDEND POLICY

On 21 October 2021, the Board of Directors of the Company approved the Company's dividend policy for the periods of 2021 to 2023. The intention of the Board of Directors is to maintain the current trend and distribute approximately CZK 300 million to shareholders in each financial year. This currently represents approximately CZK 13.46 per share before tax. The realisation of this intention is conditional on sufficient funds being available for distribution (distributable resources) without jeopardising the Company's financial stability.

### 3.1. STATEMENT OF COMPLIANCE AND BASIS OF PREPARATION

#### BASIS OF PREPARATION

The consolidated financial statements have been prepared in accordance with the laws binding in the Czech Republic and with International Financial Reporting Standards (“IFRS”), as well as the interpretations issued by the International Financial Reporting Interpretations Committee (“IFRIC”) adopted by the European Union, published and effective for reporting periods beginning on 1 January 2022.

The consolidated financial statements have been prepared on a going concern basis and in accordance with the historical cost method, except for financial assets and liabilities measured at fair value, employee benefits measured at fair value and the assets, liabilities and contingent liabilities of the acquiree which are measured at their acquisition-date fair values as required by IFRS 3.

The consolidated financial statements include the consolidated statement of the financial position, consolidated statement of profit or loss, consolidated statement of other comprehensive income, consolidated statement of changes in equity, consolidated statement of cash flows and explanatory notes.

The Group’s consolidated financial statements cover the period of nine months ended 30 September 2022 and contain comparatives for the period of nine months ended 30 September 2021 and as of 31 December 2021 (in case of the consolidated statement of financial position). Consolidated statement of profit or loss and consolidated statement of other comprehensive income are presented also for the periods of 3 months ended 30 September 2022 and 30 September 2021.

The consolidated financial statements are presented in Czech crowns (“CZK”), and all values, unless stated otherwise, are presented in CZK thousand.

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires that management exercises its judgement in the process of applying the Group’s accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in section 3.7.

### 3.2. FUNCTIONAL AND PRESENTATION CURRENCY

The consolidated financial statements are presented in Czech crowns (CZK), which is the Company’s functional and presentation currency.

### 3.3. FOREIGN CURRENCY TRANSLATION

The financial statements items of the Group entities are measured using their functional currency. Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions.

Monetary assets and liabilities expressed as at the balance sheet date in foreign currencies are translated using the closing exchange rate announced by the National Bank for the end of the reporting period, and all foreign exchange gains or losses are recognized in profit or loss under:

- operating income and expense – for trading operations,
- finance income and costs – for financial operations.

Non-monetary assets and liabilities carried at historical cost expressed in a foreign currency are stated at the historical exchange rate as at the date of the transaction. Non-monetary assets and liabilities carried at fair value expressed in a foreign currency are translated at the exchange rate as at the date on which they were remeasured to the fair value.

### 3. SIGNIFICANT ACCOUNTING POLICIES

The following exchange rates were used for the preparation of the financial statements:

Closing exchange rates	30.9.2022	31.12.2021	30.9.2021
CZK/EUR	24.550	24.860	25.495
CZK/PLN	5.063	5.408	5.518
CZK/HRK	3.263	3.307	3.406

Average exchange rates	1.1.2022 - 30.9.2022	1.1.2021 - 31.12.2021	1.1.2021 - 30.9.2021
CZK/EUR	24.623	25.645	25.735
CZK/PLN	5.273	5.619	5.660
CZK/HRK	3.268	3.406	3.416

The results and financial position of foreign operations are translated into CZK as follows:

- assets and liabilities for each statement of financial position presented at closing exchange rates announced by the Czech National Bank for the balance sheet date,
- income and expense for each statement of profit or loss at average exchange rates announced by the Czech National Bank for the reporting period, unless this is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions,
- the resulting exchange differences are recognised in other comprehensive income and accumulated in equity,
- cash-flow statement items at the average exchange rate announced by the Czech National Bank for the reporting period, unless this is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions. The resulting foreign exchange differences are recognized under the “Effects of exchange rate changes on cash and cash equivalents” item of the cash-flow statement.

Goodwill and fair value adjustments arising on the acquisition of a foreign operation are treated as assets and liabilities of the foreign operation and translated at the closing rate.

Foreign exchange gains and losses recognized in profit or loss are offset on individual company level.

#### 3.4. CONSOLIDATION METHODS

The consolidation methods based on which the present financial statements have been prepared have not changed compared to the methods used in the annual consolidated financial statements for the twelve-month period ended 31 December 2021.

#### 3.5. ACCOUNTING METHODS

The accounting policies adopted are consistent with those used in the annual consolidated financial statements for the twelve-month period ended 31 December 2021.

#### 3.6. NEW AND AMENDED STANDARDS ADOPTED BY THE GROUP

Several standards, amendments and interpretations apply for the first time in 2022, but do not have any material impact on the interim consolidated financial statements of the Group.

## 3. SIGNIFICANT ACCOUNTING POLICIES

### 3.7. SIGNIFICANT ESTIMATES AND KEY MANAGEMENT JUDGEMENTS

Since some of the information contained in the consolidated financial statements cannot be measured precisely, the Group's management must perform estimates to prepare the consolidated financial statements. Management verifies the estimates based on changes in the factors considered at their calculation, new information or past experience. For this reason, the estimates made as at 30 September 2022 may be changed in the future. The main estimates pertain to the following matters:

Estimates	Type of information
Impairment of CGU, goodwill and individual tangible and intangible assets	Key assumptions used to determine the recoverable amount: Impairment indicators, used models, discount rates, growth rates.
Useful life of trademarks	The history of the trademark on the market, market position, useful life of similar products, the stability of the market segment, competition.
Deferred tax asset from tax losses	Historical experience, current and forward-looking information available to the management.
Income tax	Assumptions used to recognise deferred income tax assets (other than Deferred tax asset from tax losses).
Impairment of receivables	Historical experience, credit assessment, current and forward-looking information available to the management.

### 3.8. STANDARDS ISSUED BUT NOT YET EFFECTIVE

The Group has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

### 3.9. APPROVAL OF CONSOLIDATED FINANCIAL STATEMENTS

The Board of Directors approved the present consolidated financial statements for publication on 24 November 2022.

## 4. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 4.1. SEGMENT INFORMATION

The Board of Directors of Kofola ČeskoSlovensko a.s. is the chief operating decision maker (“CODM”) responsible for operational decision-making and uses segment results to decide on the allocation of resources to the segments and to assess segments’ performance. The following business segments are presented within these financial statements:

- CzechoSlovakia,
- Adriatic,
- Fresh & Herbs.

Division of particular Group companies between the segments is outlined in the section 2.2.

Furthermore, CODM monitors revenue, but not a profit measure, from the following product lines:

- Carbonated beverages,
- Non-carbonated beverages (incl. UGO fresh bottles),
- Waters,
- Syrups,
- Fresh bars & Salads,
- Other (e.g. energy drinks, isotonic drinks, tea, coffee, transportation and other services).

In compliance with the relevant requirements of IFRS 8 Operating Segments, the management presents also the distribution of revenues and non-current assets (other than financial instruments and deferred tax assets) distributed into geographical areas.

The Group applies the same accounting methods to all segments. These policies are also in line with the accounting methods used in the preparation of these consolidated financial statements. Transactions between segments are eliminated in the consolidation process.

The Group did not identify any customer in the nine-month period ended 30 September 2022 and in the comparative nine-month period ended 30 September 2021 that generated more than 10% of the Group’s consolidated revenue.

### SEASONAL AND CYCLICAL NATURE OF THE OPERATIONS

#### SEASONALITY

Seasonality is associated with periodic deviations in demand and supply and has certain effect on Group's general sales trends. Beverage sales peak appears in the 2nd and 3rd quarter of the year. This is caused by increased drink consumption in the spring and summer months. In the year ended 31 December 2021, about 17.4% (20.9% in 2020) of revenue was earned in the 1st quarter, with 27.1% (23.7% in 2020), 31.9% (33.7% in 2020) and 23.6% (21.7% in 2020) of the annual consolidated revenue earned in the 2nd, 3rd and 4th quarters, respectively. Shares in particular quarters of both 2021 and 2020 were influenced by COVID-19 pandemic.

#### CYCLICAL NATURE

The Group's results are to certain extent dependent on economic cycles, in particular on fluctuations in demand and in the prices of raw materials.

### 4.12. BANK CREDITS AND LOANS

#### INDEBTEDNESS OF THE GROUP FROM THE CREDITS AND LOANS

As at 30 September 2022, the Group's total bank loans and credits amounted to CZK 3,249,600 thousand (as at 31 December 2021: CZK 3,417,004 thousand). The balance decreased as a net result of overdraft repayments, regular repayments according to schedule and loan drawings for CAPEX purposes.

The Facility loan agreement as amended (which refinanced loans at that time and served for a loan financing of RADENSKA d.o.o. acquisition and also the acquisition of ONDŘÁŠOVKA a.s. and Karlovarská Korunní s.r.o.) with carrying amount of CZK 3,212,138 thousand as at 30 September 2022 (as at 31 December 2021: CZK 3,251,409 thousand) was a main component of Group's liabilities. The reason for the execution of the Facility loan agreement was a consolidation of Group financing to ensure strategic development and taking advantage of the favourable conditions of financial market.

In June 2022, an amendment to existing contract on bank credits and loans has been concluded. Transferring 60% of outstanding loan to EUR should bring significant savings in interest expense and adjustment of the repayment schedule will lead to decrease of regular annual loan repayments. The maturity is in June 2028 with quarterly repayments of

As of 31 December 2021, the Group obtained a bank waiver for the breach of Debt service coverage ratio covenant.

All other bank loan covenants were met as of 30 September 2022 and 31 December 2021.

With the amendment on bank loans, also new IRS contracts were concluded (only in relation to EUR part of the loan) with interest 2.149% p.a. + margin. At the same time, the existing IRS were terminated and sold (refer to section 4.6. Finance income).

### 4.14. LEGAL AND ARBITRATION PROCEEDINGS

#### DENATIONALISATION PROCEEDINGS AGAINST RADENSKA

There are pending denationalisation proceedings with respect to denationalisation claims of the legal successors of the former owners of RADENSKA d.o.o. – Wilhelmina Höhn Šarič and Ante Šarič. These denationalisation claims have been in the process of being decided on from the year 1993 onward. After several turns in the process the Constitutional court in 2018 reversed the decisions of the authorities adopted by then which prevented the denationalization beneficiaries from denationalization for legal reasons and returned the matter to the first instance authority. Upon such a decision the administrative unit Gornja Radgona as the first instance authority resumed with the process in 2018. In the resumed process the authority, in several partial decisions issued so far in 2018, 2019 and 2020, found the denationalization beneficiaries are entitled to denationalization, however, not in the form of in-kind return of property, for which RADENSKA would be liable, but merely in the form of compensation, which is paid from the Republic of Slovenia and neutral with respect to RADENSKA. In part the denationalisation claims were rejected for lack of merit. Such decisions of the authorities effectively mean that the beneficiary is not entitled to in-kind return of property and therefore neither RADENSKA nor Kofola are obliged to any compensation payment. In February 2021, the beneficiary even withdrew the claim for the in-kind return of the RADENSKA enterprise and real estates owned by the enterprise and is now primarily requesting to be compensated by the state. The authorities recently followed such request and issued decisions according to which the beneficiary is entitled to compensation in form of state bonds, compensated by the Slovene Sovereign Holding and neutral with respect to RADENSKA and Kofola Group. Please note that such decisions, including the most recent decision are not final and thus, in theory, there's still the risk, albeit very low, the current decisions would be reversed later in the process with potential

## 4. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

negative consequences for RADENSKA. RADENSKA is therefore still actively participating in the process and protecting its interests.

### LITIGATION WITH FORMER LAWYER

There is a litigation concerning the amount of CZK 23,070 thousand with a former lawyer Mr. Belec, who represented RADENSKA in the denationalization process and with whom RADENSKA already concluded a settlement in 2018. Currently, Mr. Belec is in a personal bankruptcy procedure and claims that the settlement in 2018 was not in his interest.

### OTHER PROCEEDINGS

Some of the Group companies are routinely involved in legal proceedings which arise in the ordinary course of the Group's business but which are not material to the Group. The Company is not involved in any judicial, administrative or arbitration proceedings and has not conducted such proceedings in the past.

Apart from the above denationalisation related proceedings, there are no governmental, legal or arbitration proceedings (including any such proceedings which are pending or threatened, of which the Company and/or Group is aware, including any claims against the directors of the Company) which may have, or have had during the 12 months prior to the date of these financial statements, an effect on the financial position or profitability of the Company and/or the Group.

#### Fair value of derivatives

In 2018 and 2020, the Group has concluded interest rate swaps and established a hedge accounting. Revaluation of derivatives in relation to the effective portion of the hedging relationship is accounted through other comprehensive income.

Measured derivatives are not traded in active markets, however all significant inputs required for fair value measurement are observable and as such the Group has included this instrument in Level 2 of fair value hierarchy levels.

Original derivatives in CZK were terminated in June 2022 (see section 4.4 Other operating income for realized gain) and new derivative contracts were concluded in relation to the long-term part of the facility loan that is denominated in EUR. Balances related to derivatives in the Consolidated statement of other comprehensive income result from the termination of the original derivatives in CZK and valuation of newly concluded derivatives in EUR as of 30 September 2022.

#### LEASE ACCOUNTING — IFRS 16

The amount of such rental discounts is presented within section 4.4 Other operating income.

#### OTHER INFORMATION

For more than two years, we were witnessing the impacts of COVID-19 pandemic which limited free cross-border travelling. Lockdowns impacted mostly Group's sales in the HoReCa segment and also sales in UGO salateries and freshbars.

HoReCa segment was closed for whole 1Q 2021 (except for Croatia) and part of 2Q 2021.

Currently, the Group is facing increasing prices of raw materials and energy. Ongoing war in Ukraine brings new risks and uncertainty to our business. The Group's management is very closely monitoring the development of the war conflict between Russia and Ukraine. The Group has already provided various forms of support to Ukrainian civilians and intends to continue in these activities as it cares about people in need. The whole situation impacts people, companies and states all around the world. The Group has no material direct exposure either to Russia or Ukraine. The war however impacts whole European economy and the increasing inflation rate is perceived also by the Group. Increasing input prices do not, however, represent a threat to the Group's ability to continue as a going concern as it has sufficient financial resources and is able to control its costs (e.g. by savings in marketing expenses) to a certain level. In case of the ongoing cost pressure, the Group may also increase the output prices to ensure profitability level expected by its stakeholders.

As of the date of this report, the production is in operation, we have continuing supplies of materials and energy (we are in close contact with our key suppliers). There were optimizations in CAPEX and OPEX and we plan to continue in this trend in the upcoming period based on actual development.

The Group updates its risk matrix on a regular basis and is aware of increased risks in connection with the war in Ukraine (such as already mentioned input prices). There can also be an increased frequency of cyber attacks but we haven't been subject to any such attack that would impact our daily operations or would lead to leakage of the sensitive information. Our IT department monitors the situation on the daily basis and executes necessary steps to continue in the defence of our data and systems.

The Group believes to have sufficient resources from current cash balance and overdrafts. We have an open and long-term relationship with our supportive banking group to whom we communicate our business outlook regularly.

Based on the above analysis and assumptions, including the severe but plausible scenarios, management concluded that the Group will have sufficient resources to continue its business for a period of at least 12 months from the reporting date. As a result, the Group used the going concern basis of accounting in preparing these financial statements.

### 4.19. SUBSEQUENT EVENTS

No events have occurred after the end of the reporting period that would require adjusting the amounts recognised and disclosures made in the consolidated financial statements.
